About Us

Coil Techs is an HVAC Equipment Specialist company. We service, maintain, repair, and install air conditioning and heating equipment.

We also partner with the best in the industry to provide services such as

construction installation, energy management services, sheet metal fabrication, cooling tower services, retrofits, and much more.

Coil Techs is one of many HVAC servicing companies, but what makes us different is the way we operate. Each of our employees is considered key personnel in the growth and development of our company.

Our customer service is the backbone of our business. The way we service your equipment is the way we service our own personal HVAC units.

We pride ourselves in our craftsmanship. Our employees are factory trained and are regularly updated on developments in the industry. This enables our employees to address virtually any HVAC problem on the spot.

When you have a question or a problem you can count on us to reach a solution. We are accessible and dependable to be there for your comfort from beginning to end.

All of our work is thoroughly managed to achieve optimal results and to remain cost-efficient to you. Our commitment does not end when the office is closed—we provide 24 hour service.

Our continuous integrity and reliability has earned us long-standing business relationships and true partnerships with our clients, vendors, suppliers, and subcontractors.

No job is too small or too big—as we provide the same quality service across the board
